Hygiene and safety concept

.....

Disinfection dispenser

We have set up high-quality disinfection dispensers
from the Munich-based company
Dr. Schnell

.....

.....

Employees

All of our employees are tested
at least twice a week

All employees were trained by our company doctor
concerning protective measures

All employees that show cold symptoms
are isolated and tested

All employees are supplied with medical
mouth-nose masks

.....

.....

Elevator

Limitation of the number of persons

.....

.....

Laundry cleaning

Our dry cleaning process concerning frottier and bed linen are done by a Company named Frey

Frey guarantees that the laundry is cleaned with the products of Deo-Plus®, that are listed at the Robert Koch Institute

They are listed as virucidal, disinfecting and antibacterial

.....

.....

Rooms

All room key cards are disinfected before handout

During the entire cleaning period doors and windows are opened by the cleaning staff and surfaces are disinfected

Cleaning plans and intervals have been intensified to provide equal protection for guests and staff

A hand sanitizer is available in the room

.....

Fitness

One household is allowed in the fitness area
Please book in advance and keep
the minimum distance

The fitness room is equipped with
disinfectants and paper rolls

Everything will be cleaned and
disinfected after each use

.....

.....

Restaurant

We have decreased our seating capacity

All tables are disinfected after each use

The menu cards are disinfected after use

Intense ventilation before and after service hours

We offer individually packaged food at the breakfast buffet

Thanks to our high-quality ventilation system
a very large amount of air is recirculated. Fresh air
is blown into the room and used air is extracted
